SUMMARY

Frontend Developer with a strong foundation in HTML, CSS, JavaScript, PHP, and SQL. Skilled in building responsive, user-friendly web interfaces and passionate about crafting seamless digital experiences. Continuously learning and exploring modern frontend technologies to enhance development efficiency. Seeking an opportunity to contribute technical expertise and creativity in a dynamic development environment.

SKILLS

Programming Languages: HTML5, CSS, JavaScript, PHP, SQL
Databases: MySQL

PROJECTS

Portfolio Website Link
- Developed a fully responsive portfolio website using HTML, CSS, and JavaScript, showcasing modern design principles and seamless user experience. Integrated a contact form with Google Sheets for efficient data collection and management, demonstrating proficiency in front-end development and API integration. This project reflects my ability to create interactive, user-friendly web applications and optimize functionality through innovative solutions.

E-commerce Website Link
- Developed a responsive e-commerce website for cycling products using HTML, CSS, and JavaScript, featuring product listings, detailed product pages and a shopping cart system. Implemented dynamic interactivity with JavaScript for seamless navigation and user experience. Deployed the project on GitHub Pages for accessibility and continuous development.

CERTIFICATIONS

- JPMorgan Chase & Co - Software Engineering Job Simulation, Forage   Jan - 2025
- Introduction to Programming Using Python, Scaler   Oct - 2024
